Education

Bachelor of Science: Business Analytics
National University of Singapore (NUS) - Singapore

Expected in 05/2028

Professional Summary

Currently a Year 2 Business Analytics student at NUS School of Computing (GPA: 4.36/5.00) with strong foundations in data management, analysis and statistical inference. Proficient in R, Java, Python, SQL and visualization software such as Tableau. Experienced in designing relational databases, analyzing large datasets (100,000+ records), and building data visualizations to generate actionable business insights. I am interested in data analysis and predictive roles that translate raw data into actionable insights.

Technical Skills

- Programming and Query Languages** - SQL, Python, Java, R
- Data Visualization** – Tableau, Excel
- Analytics:** Statistical inference, exploratory data analysis (EDA), regression
- Database:** Relational database design, ER modeling, normalization,

Projects

- E-Commerce Business Insights Analysis (Olist Dataset)**
 - Analyzed 100,000+ transaction records using SQL and Python to identify purchasing trends and revenue drivers
 - Used Python and SQL to clean, preprocess and format the raw data sets
 - Built visualizations using Tableau to communicate insights
 - Proposed data-driven recommendations to improve Olist's product offerings and customer experience
- Relational Data Base Design (SQL)**
 - Designed and implemented a relational database schema for a school facility booking portal
 - Created Entity-Relationships (ER) diagrams and normalized tables to maintain data integrity
 - Defined Primary and Foreign Keys to enforce referential integrity
- Personal Resume Website** (<https://json-ng.github.io/jason-portfolio/>)
 - Designed and deployed a personal portfolio website to showcase my data analytics journey
 - Applied front-end development principles to enhance user experience
 - Maintained version control using Git

Experience

- Sales Promoter** 2019
Tuas Power Supply Pte Ltd – Singapore
 - Completed sales and communication training, developing persuasive communication and customer needs analysis skills
 - Analyzed customer's electrical usage patterns and advised on optimized pricing plans
 - Applied cost comparison analysis to increase plan adoption rates
- Executive Lounge Service Staff** 2024
Fairmont Hotel – Singapore
 - Coordinated with cross-functional teams to ensure smooth lounge operations
 - Built strong guest rapport and delivered personalized services that suited their preferences
 - Identified recurring service inefficiencies and communicated feedback to operations team
